

Farnborough & Crofton Candidate

Juergen Wiegerling has lived in Orpington for almost 20 years. His academic studies and qualifications include Finance, IT, Education. He finished an apprenticeship in Arts & Design. Professionally, he worked for the government's environmental department, investigating contamination caused mainly by large firms, and was involved in the preparation of legal prosecutions.

He was a MD of an IT firm, and in his current role as an executive manager of a property management firm he stand for affordable housing. By joining the Green Party he loves working with like-minded people who care to help others and try to protect our environment.

I have lived in Farnborough and Crofton for almost 20 years, and like you I've seen endless Bromley council tax hikes and ever more pollution and noise from both, roads and nearby private airport, owned by Bromley Council and run by the BHAL-Company.

The two big issues for me this year are the cost of living crisis we face, with energy bills rocketing, and unbearable pollution caused by air traffic and cars on our roads. Bromley Council's response to this is once again hiking council taxes and selling off our green spaces to developers, allowing more planes, helicopters and cars to pollute our towns and block our local roads.

We need a fairer system to support our local shops and restaurants, a reduction on council tax, and have a say on how council tax is being used. I want to see a cleaner and greener Farnborough and Crofton, and if those are your priorities too, electing a Green Party councillor is the answer.

Together with the local residents, I am working hard to reduce traffic and pollution caused by private planes, helicopters and cars. I want to get them away from Farnborough Hospital, Darrick Wood School, Farnborough playground and our parks, so that we may once again get some fresh air and be able to exercise in peace.

Bromley Council has 50 Conservative Party councillors out of 60. One Green councillor could be a strong voice for your environment, health, green spaces and cleaner air. It is time that we, the residents of Farnborough and Crofton, have a say over our own freedom and health.

Make your voice count. I am your Farnborough & Crofton councillor candidate for the Green Party and I will be your voice on Bromley council against pollution and noise.

Make YOUR vote count.

Wiegerling, Juergen
