

I am running as your Member of Parliament for Eltham and Chislehurst because I believe our community deserves a representative who truly understands and champions the needs and aspirations of its residents. This area is rich with potential, and I am committed to harnessing the energy, creativity, and community spirit that make Eltham and Chislehurst special.

Over the years, I have seen the challenges we face. Our NHS is in crisis, child poverty is on the rise, and environmental issues demand urgent attention. Our community needs a dedicated advocate who will prioritize our well-being over political games and corporate interests. I am that advocate.

As a member of the Green Party, my commitment is to you—the people of Eltham and Chislehurst. Unlike other parties, we are not influenced by lobbyists or external

pressures. My dedication is to restore integrity to our politics and ensure your voice is heard in Parliament.

I believe our NHS should be run as a public service, not for the benefit of shareholders. I will fight to bring our NHS back into public ownership, ensuring it serves the community and supports everyone's well-being. Austerity has devastated our public services and plunged millions into poverty. I will work tirelessly to end austerity, invest in our public services, and support the most vulnerable among us. Education should be accessible to all, free from financial burdens. I will strive to eliminate unfair taxes on education and ensure every child can succeed.

Environmental sustainability is also a top priority for me. Our community deserves clean air, green spaces, and sustainable development. I will champion policies that protect our environment and promote a greener future. Additionally, I believe in the power of community. I will work to bridge divides, foster unity, and empower local initiatives that bring about positive change.

Eltham and Chislehurst need a representative who is present, dedicated, and unwavering in their commitment to the community. I am running for MP because I am passionate about making a tangible difference in our area. Together, we can create a brighter, fairer, and more sustainable future.

On the 4th of July, vote for me, Sam Gabriel, for real hope and real change. Let's rebuild Eltham and Chislehurst together, ensuring it remains a place where everyone can thrive.
